

## **Director, Ottawa Office**

At C-CORE, we are committed to investing in people and creating a dynamic and rewarding employment experience. C-CORE is seeking a **Director, Ottawa Office** to work with its highly skilled team of business professionals, engineers and scientists. If you are a self-motivated team player and committed to excellence, this may be your opportunity.

C-CORE conducts R&D and provides research-based advisory services, delivering innovative engineering and technology solutions to national and international clients. Over the past 43 years, we have built a world-class team of over 70 dedicated professionals, with a reputation for excellence in Remote Sensing, Ice Engineering, and Geotechnical Engineering. This position is located in our Ottawa office.

### **DIRECTOR, OTTAWA OFFICE**

C-CORE is seeking a Director to join our team based in Ottawa, ON. Reporting to the Vice-President of Remote Sensing, the Director is a management position which will liaise closely with C-CORE's management team, as well as with industrial, government and academic clients. The Director will lead the Ottawa team, providing technical direction and coordinating the efforts of its engineers, scientists and technicians. The Director will also be involved in business development activities in Canada and abroad. The successful candidate will have exceptional analysis and problem-solving skills, strong communication skills (spoken and written) and the ability to work in and lead a small team of engineers and scientists. A strong background in the fields of remote sensing, earth observation, and experience within the Canadian Defense sectors would be an asset.

In addition, the successful applicant should have experience/knowledge in the following areas:

- Radar signal processing;
- Earth Observation and Remote Sensing sensors and applications;
- System and workflow design and implementation;
- Project definition and Proposal Writing; and
- Project Management.

### **Qualifications:**

- Ability to manage projects, clients and personnel and to deliver projects on time and within budget.

- Ability to define and follow-up with current clients for follow-on work.
- Strong interpersonal skills and ability to meet and interact with both scientific and decision making (Executive level) individuals
- Strong understanding of EO and Remote Sensing across a broad spectrum.
- Strong understanding of Radar principles.
- Ability to link research, often at the fundamental level, to end-user requirements.
- Ability to conceptualize and define projects for a number of different clients:
  - Pure interest and rule of thumb level estimates;
  - Conceptual proposals and white paper level concepts;
  - Completely defined proposals and concepts down to WBS and fully defined budgets.
- Excellent written and oral communication skills
- 10+ years of experience

**Location:**

Ottawa, Ontario

**Salary & Benefits:**

C-CORE is committed to investing in people and creating a dynamic, rewarding employment experience.

C-CORE offers competitive salaries and benefits, including attractive vacation & leave entitlements, a generous retirement savings plan and medical & dental plans. We also offer numerous opportunities for professional and personal growth.

**Apply to:**

Qualified applicants should forward their résumé electronically to: [careers@c-core.ca](mailto:careers@c-core.ca). Please quote **Director, Ottawa Office** in your application. For further information, please refer to C-CORE website ([www.c-core.ca](http://www.c-core.ca)).

**Deadline for Submission:**

TBD

C-CORE thanks all those who apply; however, only those whose skills most closely match the position will be contacted.
