

## **Senior Remote Sensing Engineer/Scientist**

At C-CORE, we are committed to investing in people and creating a dynamic and rewarding employment experience. C-CORE is seeking a **Senior Remote Sensing Engineer/Scientist** to work with its highly skilled team of business professionals, engineers and scientists. If you are a self-motivated team player and committed to excellence, this may be your opportunity.

C-CORE conducts R&D and provides research-based advisory services, delivering innovative engineering and technology solutions to national and international clients. Over the past 43 years, we have built a world-class team of over 70 dedicated professionals, with a reputation for excellence in Remote Sensing, Ice Engineering, and Geotechnical Engineering. This position is located in our St. John's office.

The successful applicant will be involved in developing remote sensing applications within the context of applied research and operationalization. In addition to working well in a dynamic team environment and possessing superior problem solving skills, the ideal candidate will be able to balance scientific rigor with operational efficiency.

### **Qualifications:**

- Advanced degree in a relevant scientific or engineering discipline with emphasis on remote sensing.
- Familiarity with optical, hyperspectral and radar (SAR) imagery acquired with satellite and airborne platforms.
- At least 5 years' experience in the use of remote sensing for the mapping and monitoring of land cover and land use, wetlands and geohazards.
- Solid understanding of advanced data analysis methods applicable to the exploitation of remotely sensed imagery.
- Experience in collecting, integrating and analyzing geo-spatial data from a wide range of sources within a GIS environment.

**NOTE: Engineering applicants must be registered or eligible for registration, with the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL).**

**Location:**

St. John's, NL

**Salary & Benefits:**

**C-CORE** is committed to investing in people and creating a dynamic, rewarding employment experience.

C-CORE offers competitive salaries and benefits, including attractive vacation & leave entitlements, a generous retirement savings plan and medical & dental plans. We also offer numerous opportunities for professional and personal growth.

**Apply to:**

Qualified applicants should forward their résumé electronically to: [careers@c-core.ca](mailto:careers@c-core.ca). Please quote **Senior Remote Sensing Engineer/Scientist** in your application. For further information, please refer to C-CORE website ([www.c-core.ca](http://www.c-core.ca)).

**Deadline for Submission:**

February 11, 2019

C-CORE thanks all those who apply; however, only those whose skills most closely match the position will be contacted.
