

## **Intermediate Geotechnical Engineer**

At C-CORE, we are committed to investing in people and creating a dynamic and rewarding employment experience. C-CORE is seeking an **Intermediate Geotechnical Engineer** to work with its highly skilled team of business professionals, engineers and scientists. If you are a self-motivated team player and committed to excellence, this may be your opportunity.

C-CORE conducts R&D and provides research-based advisory services, delivering innovative engineering and technology solutions to national and international clients. Over the past 45 years, we have built a world-class team of over 70 dedicated professionals, with a reputation for excellence in Remote Sensing, Ice Engineering, and Geotechnical Engineering. This position is located in our St. John's office.

### **INTERMEDIATE GEOTECHNICAL ENGINEER**

This position will be a lead within the geotechnical engineering team at C-CORE. Our geotechnical expertise includes experimental modeling, numerical analysis and risk assessment in areas such as onshore and offshore pipelines, ice/seabed interaction, soil/structure interaction. Our world class Centrifuge Facility is used to simulate many engineering applications including projects in offshore and arctic regions. The intermediate geotechnical engineer will work within the geotechnical team to execute various types of projects, including testing programs with tasks including design, analysis, assembly and test, data analysis and reporting.

### **Qualifications:**

The ideal candidate will have a graduate degree in Civil Engineering with relevant courses in Geotechnical Engineering and 2 to 5 years of experience. An advanced degree in Geotechnical Engineering or related field will be considered an asset. Excellent communication, analytical and decision-making skills are required along with the ability to work independently in a highly challenging environment.

**NOTE: Applicants must be registered or eligible for registration with the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL)**

### **Location:**

St. John's, Newfoundland

**Salary & Benefits:**

C-CORE is committed to investing in people and creating a dynamic, rewarding employment experience.

C-CORE offers competitive salaries and benefits, including attractive vacation & leave entitlements, a generous retirement savings plan and medical & dental plans. We also offer numerous opportunities for professional and personal growth.

**Apply to:**

Qualified applicants should forward their résumé electronically to: [careers@c-core.ca](mailto:careers@c-core.ca). Please quote **Intermediate Geotechnical Engineer** in your application. For further information, please refer to C-CORE website ([www.c-core.ca](http://www.c-core.ca)).

**Deadline for Submission:**

September 30, 2021

**COVID 19 precautions:**

Remote Interview Process; Personal protective equipment provided or required; Social distancing guidelines in place; Virtual meetings; Sanitizing, disinfecting, or cleaning procedures in place.

C-CORE thanks all those who apply; however, only those whose skills most closely match the position will be contacted.
